

New Book Release - Tropical Bonsai

Author - Budi Sulistyo

If a picture tells a thousand words then this book speaks volumes.

A 'must have' book of some of the most well styled trees I have ever set eyes upon.

Budi is from Indonesia, and an author of several books. Information and tree species that are relevant to our part of the world.

The islands of Indonesia produce some of the best Yamadori trees in the world.

REVUE by Tess Simpson
